

# TASKI® MyMicro Cloths

Good performance, time and time again! TASKI MyMicro is a knitted microfiber cleaning cloth designed for spray and wipe and pre-wetted cleaning. The fine fibers of the cloth make it easy to penetrate into the surface at a finer level than normal fibers, removing higher levels of dirt, dust and bacteria.

## Features & Benefits

- TASKI MyMicro cloths are a compact cloth that is washable and reusable
- TASKI MyMicro are available in four different colors which enables end users to comply with common color coding practices
- TASKI MyMicro can be used dry or damp and is most suited for spray and wipe or pre-wetted cleaning methods
- Fine fibers create a capillary effect with the cloth that collects and retains dirt and dust particles from the surface, removing the need for a second drying pass
- The cloths are guaranteed for at least 300 washes when recommended care instructions are followed, allowing for long-term use

## Applications

- Designed for spray and wipe and pre-wetted cleaning on a multitude of surfaces
- Great for facilities with multiple areas to be cleaned to avoid cross contamination
- Can be used in combination with the TASKI Mobile Work Stations designed for restrooms, office/cubicles, patient rooms and schools

TASKI®

# TASKI® MyMicro Cloths

## Description of Features

TASKI MyMicro is recommended to be used for spray and wipe and pre-wetted cleaning, however, it is also suitable for the single dip bucket method

- Wash colors separately
- Do not launder together with other textiles
- After use with chemicals always pre-wash or rinse the cloths without detergent
- Do not use any bleach, softener or highly alkaline laundry product
- Reminder: Take care to refrain from over drying or exposing to temperatures that are too high to avoid thermal damage to fibers

When using microfiber cloths please wear gloves.

Technical data	
Colors	Red, blue, yellow and green
Material	80% Polyester (PES), 20% Polyamide (PA)
Size	14 x 14 in. (36 x 36 cm)
Washing	Maximum temperature 194°F (90°C)
Drying	Maximum temperature 140°F (60°C)
Durability	Washable 300 times at 194°F (90°C)

The above data is typical of normal production and should not be taken as a specification.
