## Detergent – wool

### Description

Clax Merino is a liquid detergent specially developed for washing delicates such as wool and silk. The product is suitable for use with automatic dosing equipment and can be used at medium and soft water hardnesses at temperatures upto 60°C.

### Key properties

Clax Merino is a very mild and highly active detergent for all white and coloured delicates. The product is especially suitable for washing delicates such as wool, feathers and silk. Clax Merino contains novel new care ingredients which make sure that the delicates are protected from too much damage during the washing process. These ingredients will also give the textile a more soft and rich feeling. Next to care for the delicate fabrics Clax Merino will also give a very good washing performance even with the application of limited mechanical action. The combination of the different wash active substances with complexing agents to bind the water hardness will ensure effective fat and protein removal already at temperatures as low as 20°C. Deodorizing components furthermore help reduce malodours and leave the wash with a nice good smelling perfume. Clax Merino will freshen-up the colours of your fabric and will not cause dye transfer.

### Benefits

- Contains wool caring ingredients
- Contains care ingredients which will prevent excessive linting and shrinking
- Optimal removal of fat and proteins
- Suitable for washing all delicates including colour sensitive articles

### Use instructions

Clax Merino can be dosed with automated dosing equipment.

The ideal dosage is depending on the water hardness and soil level.

### Dosage\*

Dosage recommendation in ml/kg dry goods:

- Light soil level: 10 -15
- Medium soil level: 15 - 20
- High soil level: 20 - 25

*\*This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*
