# Flat mopping

The mops you need for the demands you have

# One range, two sizes, four m

Vileda Professional's range of flat mops is as simple as it is clever – four mops in six executions offer an unbeatable combination of performance and economy.

You choose the mop that suits your requirements, not the mop that suits your system.

## **A complete range**

From the high performance of Trio and MicroSpeed Plus to the economy of Contract and MicroLite, we have a mop that meets your requirements in terms of application, performance or budgets.

Choose your preferred attachment method, choose correct colour code, attach to frame and start cleaning. The well-known Vileda Professional quality is of course built into every solution.

## **With innovative technology**

It's more than 20 years since Vileda Professional introduced microfibers into the professional cleaning market.

Now you can benefit from the combination of the latest generation of microfibre technology with other innovative materials. The result is a range of high-performance mops with improved cleaning performance, high levels of hygiene and the lowest possible friction.

Your gain – easier and more effective cleaning, plus improved ergonomics.

## **Covering all mopping systems**

All of our mops are available with attachments for UltraSpeed, pocket, pocket/strip and Velcro usage and fit most standard frames in the market.

Additionally, the pocket and pocket and strip mops are available in both 40 cm and 50 cm sizes.

Because we know that the choice of system varies across sites and sectors!

# ops – unlimited possibilities

## MicroSpeed Plus

- Premium performance mop for use on sealed and smooth floors
- Dense microfibre construction, removes the highest levels of dirt from surfaces
- Diagonal cleaning zones loosen stubborn, ingrained dirt
- Microfibre fringes collect and remove all loose dirt particles including hairs, dust and sand
- Low weight and highly absorbent (4.5 x its weight)
- High durability, machine washable over 500 times

## Trio

- For use on heavily soiled surfaces, unstructured floors, tiles etc.
- Looped yarn construction takes the shape of any floor, removing trapped dirt
- Unique triple zone construction
  - White microfibre zone – high cleaning performance
  - Grey zone – low friction
  - Beige zone – highly absorbent
- Fringes to collect and remove all loose dirt particles
- Machine washable over 500 times

## MicroLite

- An effective, easy to use all-purpose microfibre mop with low friction
- For general cleaning of sealed and smooth floors
- Added cleaning stripes for easy removal of stubborn dirt
- Low overall weight, reduces laundry costs
- Medium durability, machine washable over 250 times

## Contract

- An effective cleaning result at an economical price
- Suitable for use on unstructured floors
- Highly absorbent, capacity to pick up over 500 ml between wringing
- Medium durability, machine washable over 250 times
