

# Master L

# 10A2

## Booster - fatty soils

### Description

Clax Master L is an alkali booster for soft water applications.

### Key properties

Clax Master L is an effective alkali booster with anti-greying agents and iron binding capacity. Inclusion of the latter ingredients guarantees long lasting whiteness of fabric and avoids yellowing. When combined with a mainwash detergent, Clax Master L enhances the wash performance on heavily soiled goods by increasing the pH of the wash liquor.

### Benefits

- Enhances wash performance (restaurant and kitchen linen)
- Prevents greying of linen
- Avoids yellowing of fabric
- Improves wash performance by affecting soil-fibre interaction (swelling)

### Use instructions

Dosage is dependent on wash classification

Dosage recommendation in ml/kg dry goods:

- Light soil level: 1.0 - 3.0
- Medium soil level: 4.0 - 8.0
- High soil level: 8.0 - 12.0

### Technical data

Appearance: Clear liquid

pH (neat): 12,5

Relative density [20°C]: 1,405

Total alkalinity [%Na<sub>2</sub>O;pH 3.6]: 27,6

*The above data is typical of normal production and should not be taken as a specification.*

### Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; [sds.diverseym.com](https://sds.diverseym.com).

Store in original closed containers away from extremes of temperature.

Only for professional users / specialists.
