

Revoflow PRO

35X1

Detergent - ultra premium with bleach

Description

Clax Revoflow PRO is a highly concentrated powder which has been specially formulated for professional laundries and is suitable to deal with all water hardness. The product should be used with the Revoflow dosing system to ensure a problem free, safe operation.

Key properties

Clax Revoflow PRO is a super concentrated all-purpose detergent designed to be used in conjunction with the Clax Revoflow system. The detergent effectively removes most stubborn soils and fat stains and contains a high amount of enzymes to deal with difficult protein soils. Clax Revoflow PRO is designed to deal with all water hardness due to its high concentration and effective sequestration properties. Finally, the anti redeposition agents make sure that your fabrics keep the original colour or whiteness and will not show greying. Due to its high concentration Clax Revoflow PRO reduces the impact on the environment by limiting packaging waste.

Benefits

- Superior performing main wash detergent for outstanding wash performance
- Contains enzymes for high protein soil removal such as blood stains
- Prevents greying of linen as the product contains anti-redeposition agents
- For all water hardness levels
- Effective bleaching at low to medium temperatures
- Highly concentrated powder minimizing the impact on the environment
- Can be dosed through the innovative Clax Revoflow system

Use instructions

Use the Clax Revoflow system to dose the product into the washing machine. The recommended dosage level is approximately 4-10 g/kg linen depending on soil level and water hardness.

Technical data

Appearance: White free flowing powder

pH (1% solution): 10,5
