TASKI® Jontec Forward ID

F4i

Alkaline floor cleaner, low foam in IntelliDose

Description

Heavy duty, alkaline floor cleaner specifically developed for use in scrubber driers. Its low foaming formula removes heavy soil, dirt and grease from all water resistant, non protected hard floors (except unsealed wood). Also ideal for top stripping. Also available in fully recyclable mono-material pouch.

Key properties

- Effective combination of surfactants and alkaline chemicals
- Low foaming, fast acting, good emulsifying power
- Versatile application
- Formulated to prepare floors for top coating
- Fresh fragrance

Benefits

- Very good cleaning performance on all types of water resistant hard floors
- Effectively cleans and removes dirt, grease and maintenance product buildup
- Ideal for use in scrubber driers, single disc machines and wet mopping systems
- Excellent top stripper, enables better adhesion of additional coats
- Leaves a pleasant, fresh odour

Use Instructions

TASKI Jontec Forward ID is supplied in flexible 1,5 L pouches designed to fit into the TASKI IntelliDose automatic on-board chemical dilution system for TASKI scrubber driers from Diversey.

Machine cleaning - direct method: Apply the solution to the floor, scrub with pads or brushes and remove the soiled solution.

Machine cleaning - indirect method / heavy soil: Apply solution with scrubbing action and squeegee blade up, allow contact time (do not allow the solution to dry) before scrubbing for a second time with squeegee blade down to remove the solution. Rinse with clean water if necessary. Recommended contact time for top stripping: 5 min.

Dosage*

For settings of the dilution rate, please refer to instruction of use for the TASKI IntelliDose device.

Dilution rates can be set at 0.2%, 0.3% or 0.5%.

Recommended concentration:

- low soiling 0.2%
- heavy soiling 0.3-0.5%
- top stripping 0.5%.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

Technical data

Appearance: Clear colorless to yellow liquid
pH value (neat): ~ 11
pH value (in use): ~ 8.5
Relative density (g/cm³; 20°C): ≈ 1.03

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists.

Product compatibility

Test material compatibility in a small inconspicuous area before use. Immediately remove any solution splashes from alkali-sensitive surfaces (e.g. wooden baseboards, painted/varnished surfaces) with a wet cloth. Do not use on water-sensitive floors, e.g. unsealed wood.

Environmental information

The surfactants used in this product are biodegradable in compliance with the requirement of EU Detergent Regulation, EC 648/2004.
Fully recyclable mono-material pouch with removable label and cap, so easy to recycle where the required infrastructure exists.

Available pack sizes

TASKI Jontec Forward ID is available in 2x1.5L / 1.8L pouch.
