

Manual dosed mechanical ware washing detergent

Description

Suma Active M20 is a concentrated high performance manual dosed powder detergent for machine ware washing specially formulated for excellent soil removal in all water conditions.

Key properties

Suma Active M20 is an alkaline powder detergent suitable for use in small commercial ware washing machines. It contains a source of alkali for effective removal of grease and fats. The formulation also contains a powerful sequestrant for prevention of scale in all water conditions, and active chlorine for effective stain removal.

Benefits

- Perfect results due to effective, free-flowing granulated powder formulation
- Effective stain removal by the presence of active chlorine
- Suitable for all water conditions
- Stable, free-flowing formulation is easy to dose
- Can be used in industrial and in domestic dish wash machines

Dosage*

Minimum recommended dosing is 1,0g/l*, depending on water hardness and the local conditions.

- For water hardness below 120ppm CaCO₃, initial dosage is 1g/l* and after dose after 5 washes 20g.
- For water hardness between 120 and 260ppm CaCO₃, initial dosage is 2g/l* and after dose after 5 washes 40g.
- For water hardness above 260ppm CaCO₃, initial dosage is 3g/l* and after dose after 5 washes 60g.

For domestic dish wash machine 15g* is recommended.

Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures).

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

Technical data

Appearance:	White powder
Odour:	Chlorine
pH value (in use):	12,2
Relative density (g/cm ³ ; 20°C):	1,04

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists.

Product compatibility

Under recommended conditions of use, Suma Active M20 is suitable for use on most materials commonly encountered in the kitchen.
