

Descaler for periodical use

Description

Suma Cit D5.8 is an acidic cleaner for the removal of lime-scale from kitchen equipment, utensils and dishwashing machines.

Key properties

Suma Cit D5.8 is acidic cleaner for the removal of lime-scale from kitchen equipment and utensils including dishwashing machines, bain-marie's, boilers, steamers, tea, coffee urns, etc. The blend of organic acids and non-ionic surfactant assures effective descaling of all kind of surfaces.

Benefits

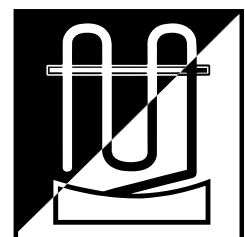

- Concentrated formulation gives economy in use
- Effective removal of limescale helps to protect equipment and to improve hygiene security
- Brightens dull metal surfaces by removing oxide film
- Based on environmental friendly organic acids

Use instructions

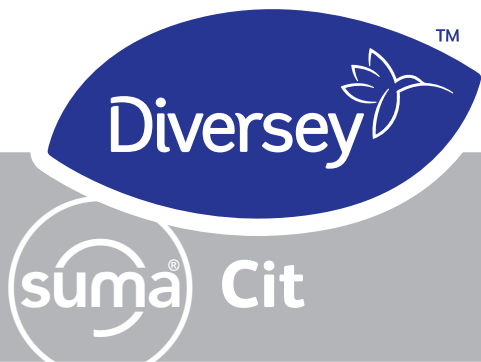

Soaking:

1. Minimum recommended dosing of 50 ml/l*.
2. Fill the item or soak in solution until the scale dissolves.
3. Scrub if required to remove heavy deposits.
4. Rinse thoroughly with clean water and allow to air dry.

Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures).
