suma®

D10.1 conc JFlex

D10.1 conc

Highly concentrated detergent disinfectant

Description

Suma D10.1 conc JFlex is a highly concentrated detergent disinfectant for cleaning and disinfection of all surfaces in food premises.

Key properties

Suma D10.1 conc JFlex is a liquid detergent disinfectant suitable for cleaning and disinfecting of all surfaces in food premises in one step. The product is very effective against a wide range of micro-organisms, in all water conditions. Suma D10.1 conc JFlex is economical in use due to the controlled dosing mechanism of the Diversey JFlex system.

Benefits

- Highly concentrated formulation gives economy in use
- Cuts through grease and dried-on food soiling
- Very effective against a wide range of micro-organisms, helps to improve hygiene security
- Effective in all water conditions
- Convenient and controlled dosing through the JFlex system

Use instructions

The JFlex dosing system gives controlled dosing both for triggers as for bucket solution

Spray cleaning and disinfection:

1. Rotate selector to bottle icon and fill spray bottle
2. Remove debris before applying product.
3. Spray surface with solution and clean with cloth or brush. Leave for 5 minutes
4. Rinse thoroughly with clean water and allow to air dry.
5. A made up solution of product in a spray bottle will be active for up to seven days.
Rinse and dry bottle before refilling.

General cleaning and disinfection:

1. Rotate selector to bucket icon and fill the bucket
2. Remove debris before applying product
3. Apply solution and clean with cloth or brush. Leave for 5 minutes
4. Rinse thoroughly with clean water and allow to air dry.

For heavily soiled areas, pre clean surfaces using Suma D10.1 conc JFlex. Actual dosage will depend on site conditions (water hardness, degree of soiling, procedures).
