

Good Sense Service Plaque

Odour neutralizer

Description

Odour neutralizing products - the overall solution against olfactory pollution. Good Sense Service utilizes your establishment's existing air conditioning/ ventilation system as a means of distributing the completely safe, odour neutralizing agents to all areas of the building. Meaning every office, lobby, corridor, reception, meeting, bedroom and wellness centre will remain odour-free with minimum intervention.

Excellent odour control

- Eliminates odours of cooking, grease and food smells in general
- The active ingredients in the gel are slowly released into the air and it uses air circulation circuits to further spread the air
- Effective up to 10 weeks
- Unique, patented Odour Neutralizing Technology (O.N.T.)
- The O.N.T. technology destroys malodour molecules and therefore enhances the fresh fragrance.

Use instructions

1. Load the air conditioning systems with Good Sense Plaque product
2. The air conditioning system provides the distribution of the product.
3. Adjust product diffusion intensity level during a test phase during the first 2 weeks.
The product smell will stabilize within 48 hours after initial installation.
4. Change every 10 weeks.

Dosage:

1 pc for 7500-15000 m³ air circulation/hour.

For central ventilation system (central air conditioning), advised product is in a plaque format.

*The choice of the numbers of plate depends volumes to be treated.

Good Sense Service Plaque
