

# F&B Divosan Extra

# VT55

## Terminal disinfectant for open plant application, QAC based

### Description

Divosan Extra is a high activity terminal disinfectant specially formulated for open plant cleaning applications throughout the food, beverage and dairy industries.

### Key properties

- Divosan Extra is a highly concentrated disinfectant based on quaternary ammonium compound (QAC). It provides excellent disinfectant activity against most vegetative forms of micro-organisms including gram-positive and gram-negative bacteria and yeasts.
- Divosan Extra is recommended for application in all open plant cleaning processes. It should be applied after surfaces have been thoroughly cleaned and rinsed. It can be used for disinfecting floors, walls, utensils and other food preparation equipment and is suitable for use in meat and poultry processors, snack foods, dairies and most other types of food processing operations.
- Divosan Extra is suitable for manual, soak or spray application.

### Benefits

- Concentrated product
- Specially formulated for food industry use
- Non-tainting, use on food contact surfaces
- Effective in soft or hard water

### Use instructions

Use Divosan Extra at concentrations between 0.25-1% v/v depending on application. Always rinse thoroughly after use.

#### Technical data

Appearance:	Clear, colourless liquid
Odour:	Characteristic
pH (1% solution at 20°C):	6.4
Relative density (g/cm <sup>3</sup> ; 20°C):	≈ 1
Chemical Oxygen Demand [COD] (gO <sub>2</sub> /kg):	390
Nitrogen Content [N] (g/kg):	6
Phosphorous Content [P] (g/kg):	None

*The above data is typical of normal production and should not be taken as a specification.*

#### Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; [sds.diversey.com](https://sds.diversey.com). Store in original closed containers away from extremes of temperature. Only for professional users / specialists. Use disinfectants safely. Always read the label and product information before use and follow local regulations and advisory.

#### Product compatibility

Divosan Extra is safe when applied as recommended for use on materials commonly found in the processed food industry. Always rinse surfaces thoroughly after use. In the event of uncertainty, it is advisable to evaluate individual materials before any prolonged use.

#### Test method

Available on request.

#### Microbiological data

Microbiological data EN1276: passed at water (300ppm as CaCO<sub>3</sub>), low soil (0.3g/l bovine albumin), 5 minute contact time at 20°C and 1% concentration.
