TASKI® Sprint Degerm

Cleaner & disinfectant, premium

Description

TASKI Sprint Degerm is a concentrated detergent disinfectant for cleaning and disinfection of all water-resistant hard surfaces.

Key properties

- Well-balanced combination of cleaning and disinfectant ingredients
- Effective against micro-organisms

Benefits

- Effectively kills and removes micro-organisms, e.g. gram-positive and gram-negative bacteria and fungi
- Simultaneously cleans and disinfects
- Suitable for all hard water-resistant surfaces

Use instructions

Dosage:

Recommended concentration (VAH - bactericidal & fungicidal (candida albicans)):

250ml for 10L cold solution (2.5%) contact time 15 min

200ml for 10L cold solution (2%) contact time 30 min

150ml for 10L cold solution (1.5%) contact time 60 min

100ml for 10L cold solution (1%) contact time 240 min

Recommended concentration (EN1276):

75ml for 10L cold solution (0.75%) contact time 5 min

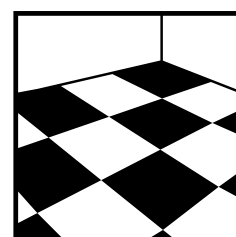

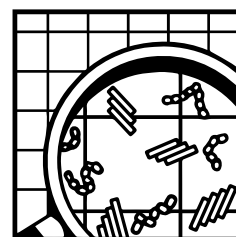

Recommended concentration (EN 14776 - clean condition):

150ml for 10L cold solution (1.5%) contact time 15 min (HIV, Hepatitis B, Rotavirus)

150ml for 10L cold solution (1.5%) contact time 5 min (Hepatitis C)

300ml for 10L cold solution (3%) contact time 15 min (Norovirus)

1. **Above floor surfaces:** Dose the product, apply the solution with a clean cloth and wipe, rinse if mandatory and let surface/object air dry.
2. **Hard Floors:** Dose the product and generously apply the solution using a disinfectant applicator or mop. Allow the floor to remain completely wet for at least 5 minutes and rinse if mandatory. Allow to dry in ambient air.
