

ENGINE WASH AND DE-WAXER

- Ideal for the cleaning and degreasing of engines and mechanical parts.
- Free of petroleum solvents.
- Does not damage aluminium and light alloys.

SUGGESTIONS

It is advisable to not allow the product to dry on painted surfaces. Use when possible in the shade.

DESCRIPTION

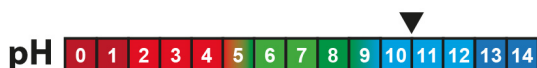

The removal of greasy and oily substances from engines and mechanical parts can prove difficult, if not with the right product.

RAPID X3 is a concentrated water-based liquid product, for the cleaning of the engine block and compartment. A formula free from hydrocarbon solvents, non-flammable, characterised by a high level of biodegradability and low toxicity. Safe to use and easy to rinse.

ENGINE WASH AND DE-WAXER

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Clear liquid
Colour	Pale yellow
Fragrance	Light characteristic
Specific weight	1.070 ± 0.01 g/ml
pH	11.0 ± 0.5
Solubility in water	Complete in all ratios
Chemical properties	Amphoteric - nonionic

FOAMING POWER

High

AVAILABLE PACKAGING

20 Kg container - 016RAX3TN20

USE MODALITY

The ideal dilution is one part product to three parts water.
Evenly wet the engine and engine compartment (including the underside of the bonnet) with a spray or spray gun.
Wait for 2-3 minutes and then rinse with a high-pressure water jet, preferably at high temperature.

Alternatively, the product can be used for heated direct drawing with a high-pressure water jet; in this case, a dilution of approximately one litre of product to 10/15 litres of water is recommended.

FOR PROFESSIONAL USE ONLY.

The product maintains its properties when properly stored in an unopened package, in a cool and dry place away from light and heat sources, at a temperature between 5°C and 35°C.
