

ROTABRILL 65 G INCOLORE

allegriini.
CARWASH & CAR CARE

PROTECTIVE REVITALIZER FOR TIRES RUBBER

- Gives back the original color.
- Does not leave oily residues.
- Gives elasticity and softness to the tire.

SUGGESTIONS

Before applying the product, be sure that the surface is clean and dry.

DESCRIPTION

Polish car tires is a simple way to improve the vehicle aspect. ROTABRILL 65G INCOLORE is a protective revitalizer for rubber surfaces, in particular for tires.

Diluted with water and sprayed on tires, it gives back the original black color and it keeps them elastic over time. Easily absorbed by the tire, it does not leave any oily residue or stain. It is possible to obtain a shiny or opaque effect on the tire, due to a different dilution. The excellence of raw materials contained makes ROTABRILL 65 G INCOLORE an extremely performance product even at different dilutions. Its colorless formulation is studied to avoid eventual spots that may remain on wheels and car bodies.
