

# TEKNOFOAM FRUITS DREAM

**allegriini.**  
CARWASH & CAR CARE

## FOAMING DETERGENT FOR THE EXTERNAL CLEANING OF VEHICLES

- Foaming detergent for delicate but efficient cleaning.
- Facilitates the complete coverage of surfaces and slows the drying of the product.
- Releases a pleasant fragrance.

### SUGGESTIONS

The use of TEKNOFOAM FRUITS DREAM is ideal for self-services bays and tunnel systems with foam arches.

### DESCRIPTION

Many detergents used in car washes are often subject to rapid evaporation during the external wash stage of the car, rendering cleaning operations more difficult and thus not always leading to the best of results. The rapid drying of the vehicle can also lead to an increase in the quantity of product used, causing unnecessary and avoidable waste. TEKNOFOAM FRUITS DREAM is a "snow effect" foam detergent with an extraordinary fragrance, for a delicate but effective cleaning of the painted surfaces of vehicles. The extraordinary volume of foam facilitates the complete coverage of surfaces, slowing the evaporation of the product on the bodywork, thus increasing the contact time between dirt and detergent. Its exceptional fragrance, the point of pride for this product, leaves a pleasant fruit fragrance in the air (sour, strawberry, raspberry). It is suitable for use with foaming equipment or in the brushes of self-service car washing bays.

### AVAILABLE PACKAGING

20Kg container - 016TFFDTN20

### USE MODALITY

Product for use in foaming devices. With dosing pumps use the product neat (10-15 ml per vehicle). With foaming sprays a dilution of between 1% and 4% with water is recommended.

The consistency and the creaminess of the foam is relative to the ratio of air, water and product.

FOR PROFESSIONAL USE ONLY.

The product maintains its properties when properly stored in an unopened package, in a cool and dry place away from light and heat sources, at a temperature between 5°C and 35°C.
