

LIQUID DETERGENT WITH RINSE AGENT

- Ensures a perfect cleaning.
- Gives back the natural shininess to car bodies.
- It spreads out a pleasant citrus fragrance.

SUGGESTIONS

Due to its alkaline characteristics, do not let dry ULTRAGREEN solutions on surfaces.

DESCRIPTION

Certain products used in car washing plants can cause problems with the dosing pumps. ULTRAGREEN is the ideal product for avoiding these problems, ensuring a long life to the dosing pumps.

ULTRAGREEN is a detergent with alkaline liquid rinse agent, slightly viscous, high concentrated, for the external washing of cars and the industrial detergency.

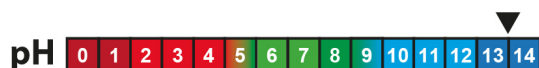

Dosed with foaming equipment, it creates an abundant and persistent foam.

The particular adjuvants contained into ULTRAGREEN ensure a perfect cleansing, giving back the natural shininess to car bodies.

LIQUID DETERGENT WITH RINSE AGENT

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Slightly viscous liquid
Color	Transparent green
Odour	Citrus
Specific weight	1.060 ± 0.01 g/ml
Water solubility	Complete at every ratio
pH	> 13
Chemical properties	Anionic - nonionic

High

AVAILABLE PACKAGING

Can of 20 Kg - 016GRENTN20

USE MODALITY

Washing brushless: dilute the product 1:20 - 1:50 with water, homogenously spray and rinse at high pressure.
Automatic car washing: dose about 15/20 ml of product per car.
Washing with pressure washer: directly draw the solutions at 10% in water with the pressure washer.
Floors, hard and metal surfaces washing: apply solutions diluted from 1:10 to 1:60 in relation to the degree of dirt to be removed, then abundantly rinse.

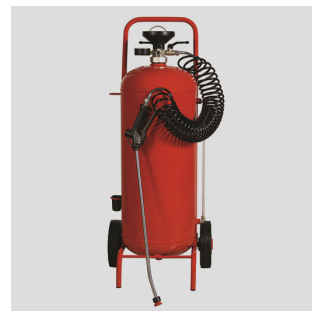

FOR PROFESSIONAL USE ONLY.

The product maintains its properties when properly stored in an unopened package, in a cool and dry place away from light and heat sources, at a temperature between 5°C and 35°C.
