

LIQUID CONCENTRATED DETERGENT FOR GLASS CLEANING

- Leaves the window particularly bright without leaving stains.
- It is particularly indicated for big glass surfaces cleaning.
- It ensures a considerable economic advantage.

SUGGESTIONS

The use of a blue microfiber textile cloth allows a great drying of the squeegee, by making the operator to work easily and rapidly.

DESCRIPTION

Many cleaning companies need valid solutions for the cleaning of big surfaces, studied to optimize costs and time of work.

VETRO ALL is a liquid detergent highly concentrated for glass cleaning.

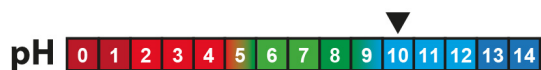

Its formulation easily removes dust, smog, prints and midges; it deeply degreases and cleans, leaving the glass particularly bright without leaving stains.

Used for internal and external cleaning, it releases a fresh clean fragrance in the environment.

The high concentration of this product allows a high dilution of use, facilitated by the pouring cap, guaranteeing a significant economic advantage as well as an optimal result. The components used in its formulation make it ideal for the cleaning of big-glassed surfaces in a rapid and efficient way using a squeegee.

These are the reasons why, VETRO ALL is particularly indicated for cleaning companies.

LIQUID CONCENTRATED DETERGENT FOR GLASS CLEANING

High

AVAILABLE PACKAGING

Carton of 12 pieces of 1L - 016VEAL0012

USE MODALITY

Dilute the product at 0,5-1%, that is to say 50/100g every 10L of water. Dip the squeegee, apply the product on the surface and rub with the squeegee. Wipe the squeegee with the indicated microfiber cloth.
